Dear Mr. Harris:

SUPPLEMENTAL REMEDIAL INVESTIGATION/ FEASIBILITY STUDY WORK PLAN  
FOR THE 200 AREAS CENTRAL PLATEAU OPERABLE UNITS, DOE/RL-2007-02,  
DRAFT A, VOLUMES I AND II

The purpose of this letter is to submit the attached Supplemental Remedial  
Investigation/Feasibility Study Work Plan for the 200 Areas Central Plateau Operable Units,  
DOE/RL-2007-02, DRAFT A, Volumes I and II for your review and information.

This draft work plan presents the sampling strategy and rationale for collecting supplemental  
remedial investigation data for the Central Plateau soil operable unit waste sites identified during  
a recently completed data quality objectives (DQO) development process conducted between RL  
and the regulators. This DQO process focused on identification of additional data needs that  
would lead to improved capability for the Tri-Party agencies to make final records of decision  
for remediation of the Central Plateau soil waste site operable units.

The review is scheduled for completion by May 30, 2007. Please provide any comments on or  
before that date. If you have any questions, please contact me, or your staff may contact  
Briant Charboneau, of my staff, on (509) 373-6137.

Sincerely,

Matthew S. McCormick, Assistant Manager  
for the Central Plateau
